Project background

2021 Next Generation Transit Strategy

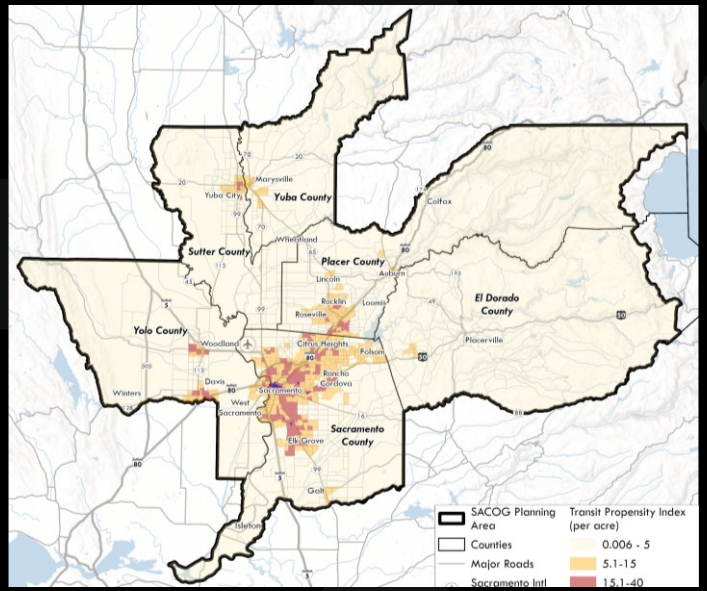
highlighted the need for

improving regional travel in the

coming years and decades

What is the Regional Transit Network?

First step to improve the level of transit service across the region



- Provide easy transit connections between cities and counties
- Develop a list of future transit corridors

What are the outcomes of this plan?

- Regional map of transit corridors that SACOG can integrate into the 2025 Blueprint

What is a transit corridor?

- Delivers fast and frequent transit service
- Fewer stops than normal fixed routes
- Ride longer distances in the same time that it takes to drive (or less!)
