

SACOG's Monitoring and Reporting Program

How the Greater Sacramento region is tracking on key measures related to Blueprint implementation

Indicators

- Strategic Plan Priorities
- REI WG, AB350, Blueprint measures
- But broader than SACOG work

Examples in use: transportation

- Do traffic collisions occur disproportionately in low income or predominately communities of color?

Examples in use: housing

- What are homeownership rates?
- Has there been any changes through time?
- What percentage of households are housing cost burdened?

Business / Economy

Homeownership gap between Black and White owners is worse now than a decade ago

By Anna Bahney, CNN

5 minute read · Published 10:56 AM EST, Tue February 20, 2024

BUSINESS

The racial homeownership gap is widening. New rules might make it worse.

Banks are facing tougher capital requirements – which will probably make mortgages pricier for cash-poor buyers

By Tory Newmyer

December 7, 2023 at 6:00 a.m. EST

Examples in use: economy

- Is the economy working for all?
- Are there differences in employment, labor force participation, income by race/ethnicity?

Where we started

- Existing progress report (last updated 2021)
- Scan of others monitoring programs
- Partners feedback
- REI Working Group
 - Full group session
 - Ad hoc working group
- Soft rollout at user conference

What we've added

- New scripted approach
- Online dashboard
- X2 number of measures and tracked at different scales

What we've added

- By race/ethnicity
 - New metrics around wealth, education completions, health, access, home ownership
- By income
 - Including housing burden, travel characteristics
- By geography
 - E.g., rural, environmental justice
